

PORT FOLIO

**PIERRE
BENOIT DE COIGNAC**

ABOUT ME

Hello, my name is Pierre BENOIT DE COIGNAC, I am 24 and I live in Bali.

I am a french graphic designer since 5 years with 3 years as a freelance. I am working only remotely.

These are my three specialities in graphism:

PACKAGING

CONTENT CREATION

POST PRINTING

PACKAGING

Creating a product artwork from a brief.
Then I create a 3D model of the product to show to the brand how it will look like.

CREATING THE ARTWORK:

'Ready to be printed'

AND THEN CREATING A 3D MODEL:

CONTENT CREATION

I have several years of experience creating content visuals for social media or website. From an idea, I can create an impactful and coherent post fitting the DNA of the brand.

POST PRINTING

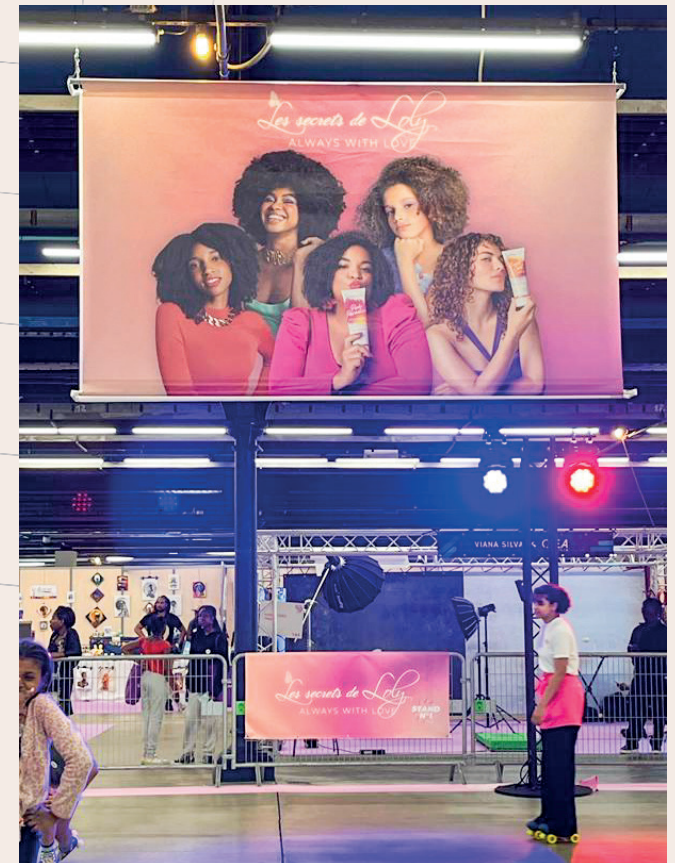

Creating visuals meant for printing has become one of my specialities as printed communication is still a very powerful assets.

Advertising display, event booth, flyers and posters, all are very common visuals I create.

I master the different printing technics to adapt with printers.
